While its lowest price fell by more than 5%, its highest price declined by less than 3%. In the past week, the market capitalization of the cryptocurrency dropped from \$110 billion to \$95 billion. The recent weekly decline created the third week with the lowest market capitalization since its rally from \$50 billion and \$53 billion on Dec. 14 and Dec. 21. Trading volume dropped to \$2.9 billion, down more than 2% from its previous weekly low of \$3.2 billion. This also resulted in a significant decline of the weekly open interest, which fell from \$68 billion to \$61 billion. Crypt
